Household battery recycling locations Lead-acid batteries, or "automotive type batteries," are banned from disposal. Consumers may bring lead-acid batteries to any Wisconsin retailer that sells these

So I think the time has come to replace the main battery. Its the original Volvo 70ah EFB battery that was on the car from new in 2016.. The car starts fine but I keep getting the "Low Battery

A fire-safe battery module cabinet is a protective enclosure designed to safely house battery modules and reduce fire risks. It is built to handle high

My main battery just died, had it replaced with same, and car kept giving me Battery charging, so no stop start. When stop/start worked, it was for about 10 sec, and car would start, with

Hiya, I have an early 2014 D2 cross country automatic. It keeps complaining about battery level, even after our (rare but very long drives). So I think the battery is shot. Funnily, when I put my

I've had both batteries replaced (with the correct models), done a 100 mile trip, overnight smart battery charge, charging voltage is fine, system messages cleared but I am still getting "low

Since that battery also supplies power to the ECU memory when the car is switched off, as well as powering the stop/start system, don't ignore it. Like the main battery, Volvo recommend

Justrite's Lithium-Ion battery Charging Safety Cabinet is engineered to charge

Shop battery cabinets from Space Age Electronics, Altronix, Bosch. Fire alarm and security system enclosures. Red and black finishes. Backup battery storage.

TBH I would look at a replacement battery on the back of that info - but can't you get one from where you bought it? I don't know what a compliance centre is but does the vehicle come with
