The main battery is the one to look at. The secondary battery is only connected to the car by a relay for a fraction of a second during an engine restart from a stop/start event, when it

I've had both batteries replaced (with the correct models), done a 100 mile trip, overnight smart battery charge, charging voltage is fine, system messages cleared but I am still getting "low

Since that battery also supplies power to the ECU memory when the car is switched off, as well as powering the stop/start system, don't ignore it. Like the main battery, Volvo recommend

My main battery just died, had it replaced with same, and car kept giving me Battery charging, so no stop start. When stop/start worked, it was for about 10 sec, and car would start, with

MANILA: Toyota Motor Philippines (TMP) will introduce the bZ4X battery-electric vehicle (BEV) this December 2025.

MANILA: Toyota Motor Philippines (TMP) is gearing up to go "beyond zero" after the Land Transportation Office has released homologation

Going to change the service battery in my 15 V40cc D2. Anything I need to be ware of or look out for ??

The all-new bZ4X is TMP's first Battery Electric Vehicle (BEV) under the Toyota brand, further boosting its full electric lineup which was previously comprised of the Lexus RZ and the Lexus

MANILA: Toyota Motor Philippines (TMP) has confirmed the upcoming local launch of the bZ4X battery electric vehicle (BEV). It will be

Hiya, I have an early 2014 D2 cross country automatic. It keeps complaining about battery level, even after our (rare but very long drives). So I think the battery is shot. Funnily, when I put my
