---

Built using advanced Lithium-Iron Phosphate (LFP) cells, intelligent Battery Management Systems (BMS), and a fully integrated Energy Management

A developed country, Canada has a high nominal per capita income globally and its advanced economy ranks among the largest in the world by nominal GDP, relying chiefly upon its abundant natural

The MEGATRON 1MW Battery Energy Storage System is a factory-direct, pre-certified containerized

A 1MWh BESS is an energy storage system with around 1,000 kilowatt-hours (kWh) of usable energy,

Canada is the largest country in North America. Canada is bordered by non-contiguous US state of Alaska in the northwest and by 12 other US states in the south. The border of Canada

Featuring a split PCS and battery cabinet design, it offers 1+N scalability and integrates seamlessly with solar PV, diesel generators, the grid, and utility power.

Energy Storage Canada is the only national voice for energy storage in Canada today. We focus exclusively on energy storage and speak for the entire industry

The design of the integrated energy storage high voltage box can isolate the battery from the external environment to avoid the battery

This will help meet the TransformTO Net-Zero Strategy target of 37MW of renewables by 2030. There is a huge requirement for renewable energy in

It is an one-stop integration system and consist of battery module, PCS, PV controler (MPPT)
