Introducing the latest option for mounting solar arrays to standard CONEX shipping containers. Our solar support structures enable 6-24 solar modules to be mounted on roof surface of standard 20-40

Thinking of adding solar panels to your shipping container? Learn key considerations, how many panels fit on 20ft and 40ft containers, plus tips and real-world examples.

Learn how to mount solar panels on a shipping container, size off-grid power for container homes, and understand containerised solar system options.

Turn your container roof into a power station - without welding, cutting, or complicated installs! Our solar panel mounting kits are designed specifically for shipping containers.

Introducing the latest option for mounting solar arrays to standard CONEX shipping containers. Our solar support structures enable 6-24 solar modules to be mounted on roof surface of standard 20-40

Introducing our Container Solar Mounting Photovoltaic Support System--a game-changing solution that transforms unused container roofs into efficient solar energy generators.

These mounting kits make it easier than ever to turn shipping containers into reliable solar power stations - whether for temporary sites, remote locations, or container-based infrastructure.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below.

Learn how to install solar panels on shipping containers. Covers mounting options, system sizing, battery storage, and off-grid power for container homes and sites.
