Inside Eastern, the Eastern Newsroom; containing recent and past news articles from/about Eastern Connecticut State University.

ENDESA (ELE), through its renewables division Enel Green Power España (EGPE), has commissioned the largest vanadium flow battery

The most commercially developed chemistry for redox flow batteries is the all-vanadium system, which has the advantage of reduced effects of species crossover as it utilizes four stable redox states of

A milestone in this revolution comes in the form of the new system inaugurated at the Son Orlandis photovoltaic power plant in Mallorca: it is the Enel Group's first

Visiting Eastern is the best way to explore our beautiful, vibrant campus and connect with your admissions counselor to learn about the application and enrollment process. We offer several ways

See Eastern through the eyes of our students! Eastern Connecticut State University is Connecticut's only public liberal arts university --and now, you can experience it like never before through The

Eastern's academic departments use state-of-the-art technology to prepare their students for jobs in a competitive global economy. Instructional technology from 3-D printing to Virtual Reality to Motion

The proof-of-concept of a membraneless ionic liquid-based redox flow battery has been demonstrated with an open circuit potential of 0.64 V and with a density current ranging from 0.3 to 0.65 mA cm<sup>-2</sup>
