The adjective effective describes things that are adequate to accomplish a purpose, or that produce the intended or expected result. But effective isn't quite the same as effectual, efficacious, or efficient!

Effective and efficient are often confused, but they have slightly different meanings. If you are effective, you do a job properly; if you are efficient, you do it quickly and easily.

EFFECTIVE meaning: 1 : producing a result that is wanted having an intended effect; 2 : in use active

In summary, solar panels are most effective at converting visible light into electricity, with additional capability to harness energy from certain UV and IR

To optimize solar panel performance, it's essential to consider the solar spectrum and the specific wavelengths of light that can be absorbed efficiently by the

Effective means having a particular role or result in practice, though not officially or in theory. They have had effective control of the area since the security forces left. The restructuring resulted in an

Adjective effective (comparative more effective, superlative most effective) Having the power to produce a required effect or effects.

Definition of effective adjective in Oxford Advanced Learner's Dictionary. Meaning, pronunciation, picture, example sentences, grammar, usage notes, synonyms and more.

Experimental PV cells and PV cells for niche markets, such as space satellites, have achieved nearly 50% efficiency. When the sun is shining, PV systems can generate electricity to directly power

We determined that the yellow filter produced the greatest voltage and current compared to using a solar panel without a filter or a red, orange,
