As MIT's first vice president for energy and climate, Evelyn Wang is working to broaden MIT's research portfolio, scale up existing innovations, seek new breakthroughs, and channel

Discover what drives the pricing of fire suppression systems for energy storage containers and how to optimize safety investments. This guide explores industry-specific cost variables, regulatory

ATESS EnerMatrix containerized energy storage systems are equipped with comprehensive and advanced fire protection, suppression, and

A look at how AI can be used to help support the clean energy transition by helping to manage power grid operations, plan infrastructure investments, guide the development of novel

Our fire-rated lithium battery storage containers and comprehensive safety measures comply with NFPA, UL, OSHA, and EPA standards, ensuring protection against fires, environmental contamination, and

At the MIT Energy Initiative's Annual Research Conference, industry leaders agreed collaboration is key to advancing critical technologies amidst a changing energy landscape.

Geothermal energy, a clean, continuous energy source accessible in many locations, has been slow to catch on. Nearly 2,000 years ago, the Romans made extensive use of geothermal

Worried about lithium-ion battery fires? Discover how clean agents & Stat-X protect BESS facilities while meeting NFPA 855 standards.

Our team combines decades of expertise in fire protection with global scale and localized service, offering fast, flexible, and fully compliant fire protection

Published by the National Fire Protection Association (NFPA), this standard provides comprehensive requirements for the safe installation of
