Buy solar panels by the pallet at discounted wholesale prices. Ideal for installers, resellers, and commercial projects. Bulk solar deals updated weekly.

Our large solar panel category (200W and up) is designed for modern 24V and 48V systems, offering larger 72-cell panels for maximum output or 60-cell panels for

2nd Factory to bring total U.S. capacity to over 5.5GW in 2027 Norcross, GA and Laurens, SC - April 14, 2026 - Suniva, the largest and oldest U.S. manufacturer of high-efficiency

U.S. solar manufacturer Suniva said on Tuesday it will invest \$350 million in a South Carolina cell factory, with production starting in early 2027.

For large commercial tasks, solar panels of 500 watts or higher are common. Meanwhile, for residential setups, the highest wattage solar panels typically range between 400 and 500 watts.

Industrial solar panels are designed for large-scale energy production, making them suitable for commercial and industrial applications.

Suniva is planning a major expansion in US solar manufacturing, with a new 4.5-gigawatt (GW) solar cell factory coming to Laurens, South Carolina. The company says the facility is expected

US-based PV manufacturer Suniva is to open a new solar cell manufacturing facility in Laurens, South Carolina.

Buying in bulk by pallet or container lets you lock in better prices per watt, simplify logistics, and get equipment from trusted brands in one place.

Our large solar panel category (200W and up) is designed for modern 24V and 48V systems, offering larger 72-cell panels for maximum output or 60-cell panels for easier handling.
