Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

We guarantee best pricing for largest energy storage battery system up to 1MWH in a 40ft container or 350KWH per 20ft container. Order at Energetech Solar.

Pre-assembled containers with foldable solar panels can start generating power in hours. Perfect for remote areas, construction sites, events, or emergencies. With 100-500 kWh batteries,

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and increase

By intelligently managing solar, battery, generator, EV, and grid power, the FranklinWH System helps you cut down electricity bills and ultimately eliminate them entirely.

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage

The MEGATRON 1MW Battery Energy Storage System is a factory-direct, pre-certified containerized BESS designed for commercial, industrial, and utility-scale on-grid applications.

Each unit is 100% solar-powered with battery backup, requiring no fuel, generator, or grid connection--ensuring uninterrupted, dependable operation in any environment.
