The meaning of MODULAR is of, relating to, or based on a module or a modulus. How to use modular in a sentence.

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and

Discover architectural lighting crafted for interiors that demand more. At Modular, we combine technical ingenuity with refined aesthetics -- lighting solutions designed to set the perfect mood and bring

Our battery enclosures are engineered for adaptability, durability, and streamlined integration. Designed for a wide range of factory installed options and/or customer supplied equipment, the units minimize

Modular buildings (and also modular homes) generally consist of universal parts (or modules) that are manufactured in a factory and then shipped to a build site where they are assembled into a variety of

Constructing a modular home involves creating building modules in a controlled factory environment. (Traditional homes, meanwhile, are built entirely at the construction site.)

Designed with heavy-duty materials and full thermal containment technology, this cabinet acts as a first line of defense in facilities that store lithium-ion batteries in bulk.

Explore StackRack's modular battery systems for residential, commercial, and utility-scale projects. Offering expert design, engineering and project management.

Simply put, modular homes have sections that are built in a factory, rather than being fully built on a home site. These parts are then transported to the site and assembled by a builder.

Managed simplicity + Self-hosted control. Pick both. Modular eliminates the tradeoff, providing the simplicity of managed inference with engineering-level control.
