Only on 21 March 1990, Namibia gained independence from South Africa. The country's name is derived from the Namib Desert. With an area of 824,292 km²; (318,260 sq. mi.), Namibia is 1.5 times the size

From concept to commissioning, the Windhoek Energy Storage System Production Plant delivers turnkey solutions that make renewable energy reliable. Isn't it time your energy projects had this level

Provides an overview of Namibia, including key dates and facts about this southern African country.

On 19 June 2025, NamPower officially commenced construction of the 100 MW Sores |Gaib Solar PV Power Station, marking its largest solar power project to date. The groundbreaking ceremony took

This article explores the types of energy storage systems, their efficacy and utilization at different durations, and other practical considerations in relying on battery technology.. As the adoption of

Previously, Namibia has had plenty of solar generation installed, while its first grid-scale BESS, the Omburu 51 MW / 51 MWh BESS at the

Namibia, country located on the southwestern coast of Africa. It is bordered by Angola to the north, Zambia to the northeast, Botswana to the east, South Africa to the southeast and south,

Construction is also underway at the 100-megawatt Sores/Gaib Solar Power Station, expected to be operational by December 2026, and the 40-megawatt biomass power plant at

Read practical information about Namibia covering geography, history, population, economy, language, and the political landscape before you embark on your journey. This comprehensive info ensures

Summary: Explore how the Windhoek Energy Storage Power Station Project leverages cutting-edge thermal energy storage to stabilize Namibia's grid and support renewable integration. Learn about its
