A 25kW solar system is an excellent choice for large homes or businesses with

Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

In a nutshell, solar panels generate electricity when photons (those particles of sunlight we just discussed) hit solar cells. The process is called the photovoltaic effect.

A 25kW solar system produces enough energy to power large homes or small to mid-sized businesses, averaging 2,000-3,000 kWh/month.
