A range of products to verify safety and efficiency of photovoltaic installations. This range includes 1500V I-V Curve Tracers, Insulation testers (IEC/EN62446), designed to provide more and more

Our complete test kits include everything you need to safely test and commission solar PV systems, including our accurate Solar Survey 200R irradiance meter, AC/DC power clamp and all leads and

You need a solar irradiance meter or a solar power meter for solar panels. These tools measure the amount of sunlight hitting the panels and provide crucial data for optimizing their performance and

A range of products to verify safety and efficiency of photovoltaic installations. This range includes 1500V I-V Curve Tracers, Insulation testers (IEC/EN62446),

Optimize your solar panels and photovoltaic (PV) systems with Megger's advanced testing tools curated with cutting-edge technology and expertise to maximize reliability and safety of your PV systems.

A solar panel tester is a specialized instrument for assessing the performance and health of photovoltaic (PV) modules. These devices are

What tools do I need for solar power testing? In addition to a solar meter, you may also need a clamp meter to measure current and voltage, a multimeter to measure resistance and continuity, and a

Electrical testing equipment for PV solar systems, including insulation testers, clamp meters, irradiance meters and complete PV test kits for commissioning and maintenance.

View the solar testing equipment we rent and sell. DC power supplies, Power analyzers, Data Acquisition, and DC Loads. Read our blogs on solar testing and contact us today for help making an

Our complete test kits include everything you need to safely test and commission solar PV systems, including our accurate Solar Survey 200R irradiance meter,
