---

From 215kWh to megawatts, this modular solution offers seamless scalability at a cost-effective rate. Integrated with battery cells, BMS, HVAC, and fire suppression within a high IP outdoor cabinet, it

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC

Propagation Prevention: Housed in individual IP54-rated metal cabinets designed to prevent fire propagation between units. Modularization and Scalability: The system is flexibly scalable at both the

90KW/266KWH All-in-one Fully integrated Outdoor Cabinet BESS produced by

A Battery Energy Storage System (BESS) is a technology that captures electricity -- typically from renewable sources such as solar PV -- and stores it in rechargeable battery banks for later use.

90KW/266KWH All-in-one Fully integrated Outdoor Cabinet BESS produced by catl Individual pricing for large scale projects and wholesale demands is available. Mobile/WhatsApp/Wechat: +86 156 0637

We provide highly stable electrical connections and fully automated turnkey projects for energy storage system integration, helping customers achieve safer, more efficient, and smarter energy storage

Through &quot;PV self-generation + energy storage backup + diesel emergency + grid complementarity&quot;, the system maximizes power supply reliability, typical for

Ensure reliable power supply: The "wind + solar + diesel" hybrid architecture, combined with energy storage system, ensures power supply continuity and

Ensure reliable power supply: The "wind + solar + diesel" hybrid architecture, combined with energy storage system, ensures power supply continuity and improves power quality.
